Improving Academic Document Management

Sample Faculty Seminar • Sample University • Fictional content

Common faculty documents

- Faculty teams manage:
  - Certificates and training records
  - Course files and teaching plans
  - Research papers and project reports
  - Department activity and audit reports

Suggested AI workflow

- 1. Upload a file
- Extract text and metadata
- Classify the document
- Review uncertain fields
- Store searchable results securely

Sample-data notice

- This presentation is fictional and intended only for testing document upload and AI analysis workflows.
